

WIRE DEREELERS

D-15 SERIES

For small wire on spools up to 150 lbs.

- Constant tension system with variable speed, regenerative DC control
- Accumulation system provides up to 24 feet of available material, ideal for quick acceleration and/or quick cycles
- Runs flat, round or other shaped wire, as well as other spooled material
- Three standard models from which to choose

D-15

D-16 SERIES

For wires sizes .001-.020" in bundles or spools under 60 lbs.

D-16V

D-16H

OPTIONAL EQUIPMENT

- Swing Arm
 - Arbor adaptors
 - Counterweights
 - UHMW Pulleys
 - Compact size for mounting on coiler or tabletop
 - Precise tension control, ideal for very fine wire. Great for medical wire, fiber optics and other delicate material
 - Variable speed, regenerative DC design will match almost any process line
- Proximity limit switch
 - Arbor Adaptors
 - Counterweights
